Register New Users

Guidelines for Registering New Users Using Form Fields

- Users will be prompted to change their password after their first login.
- Admin approval required.
- A **welcome message** with your account credentials will be emailed after admin approval.

Please enter the first name, last name, and email address of each student individually

Register Multiple Users

First Name: John | Last Name: Smith | Email Address: JohnSmith@gmail.com — Remove

✓ Email is available

First Name | Last Name | Email Address — Remove

first name is required

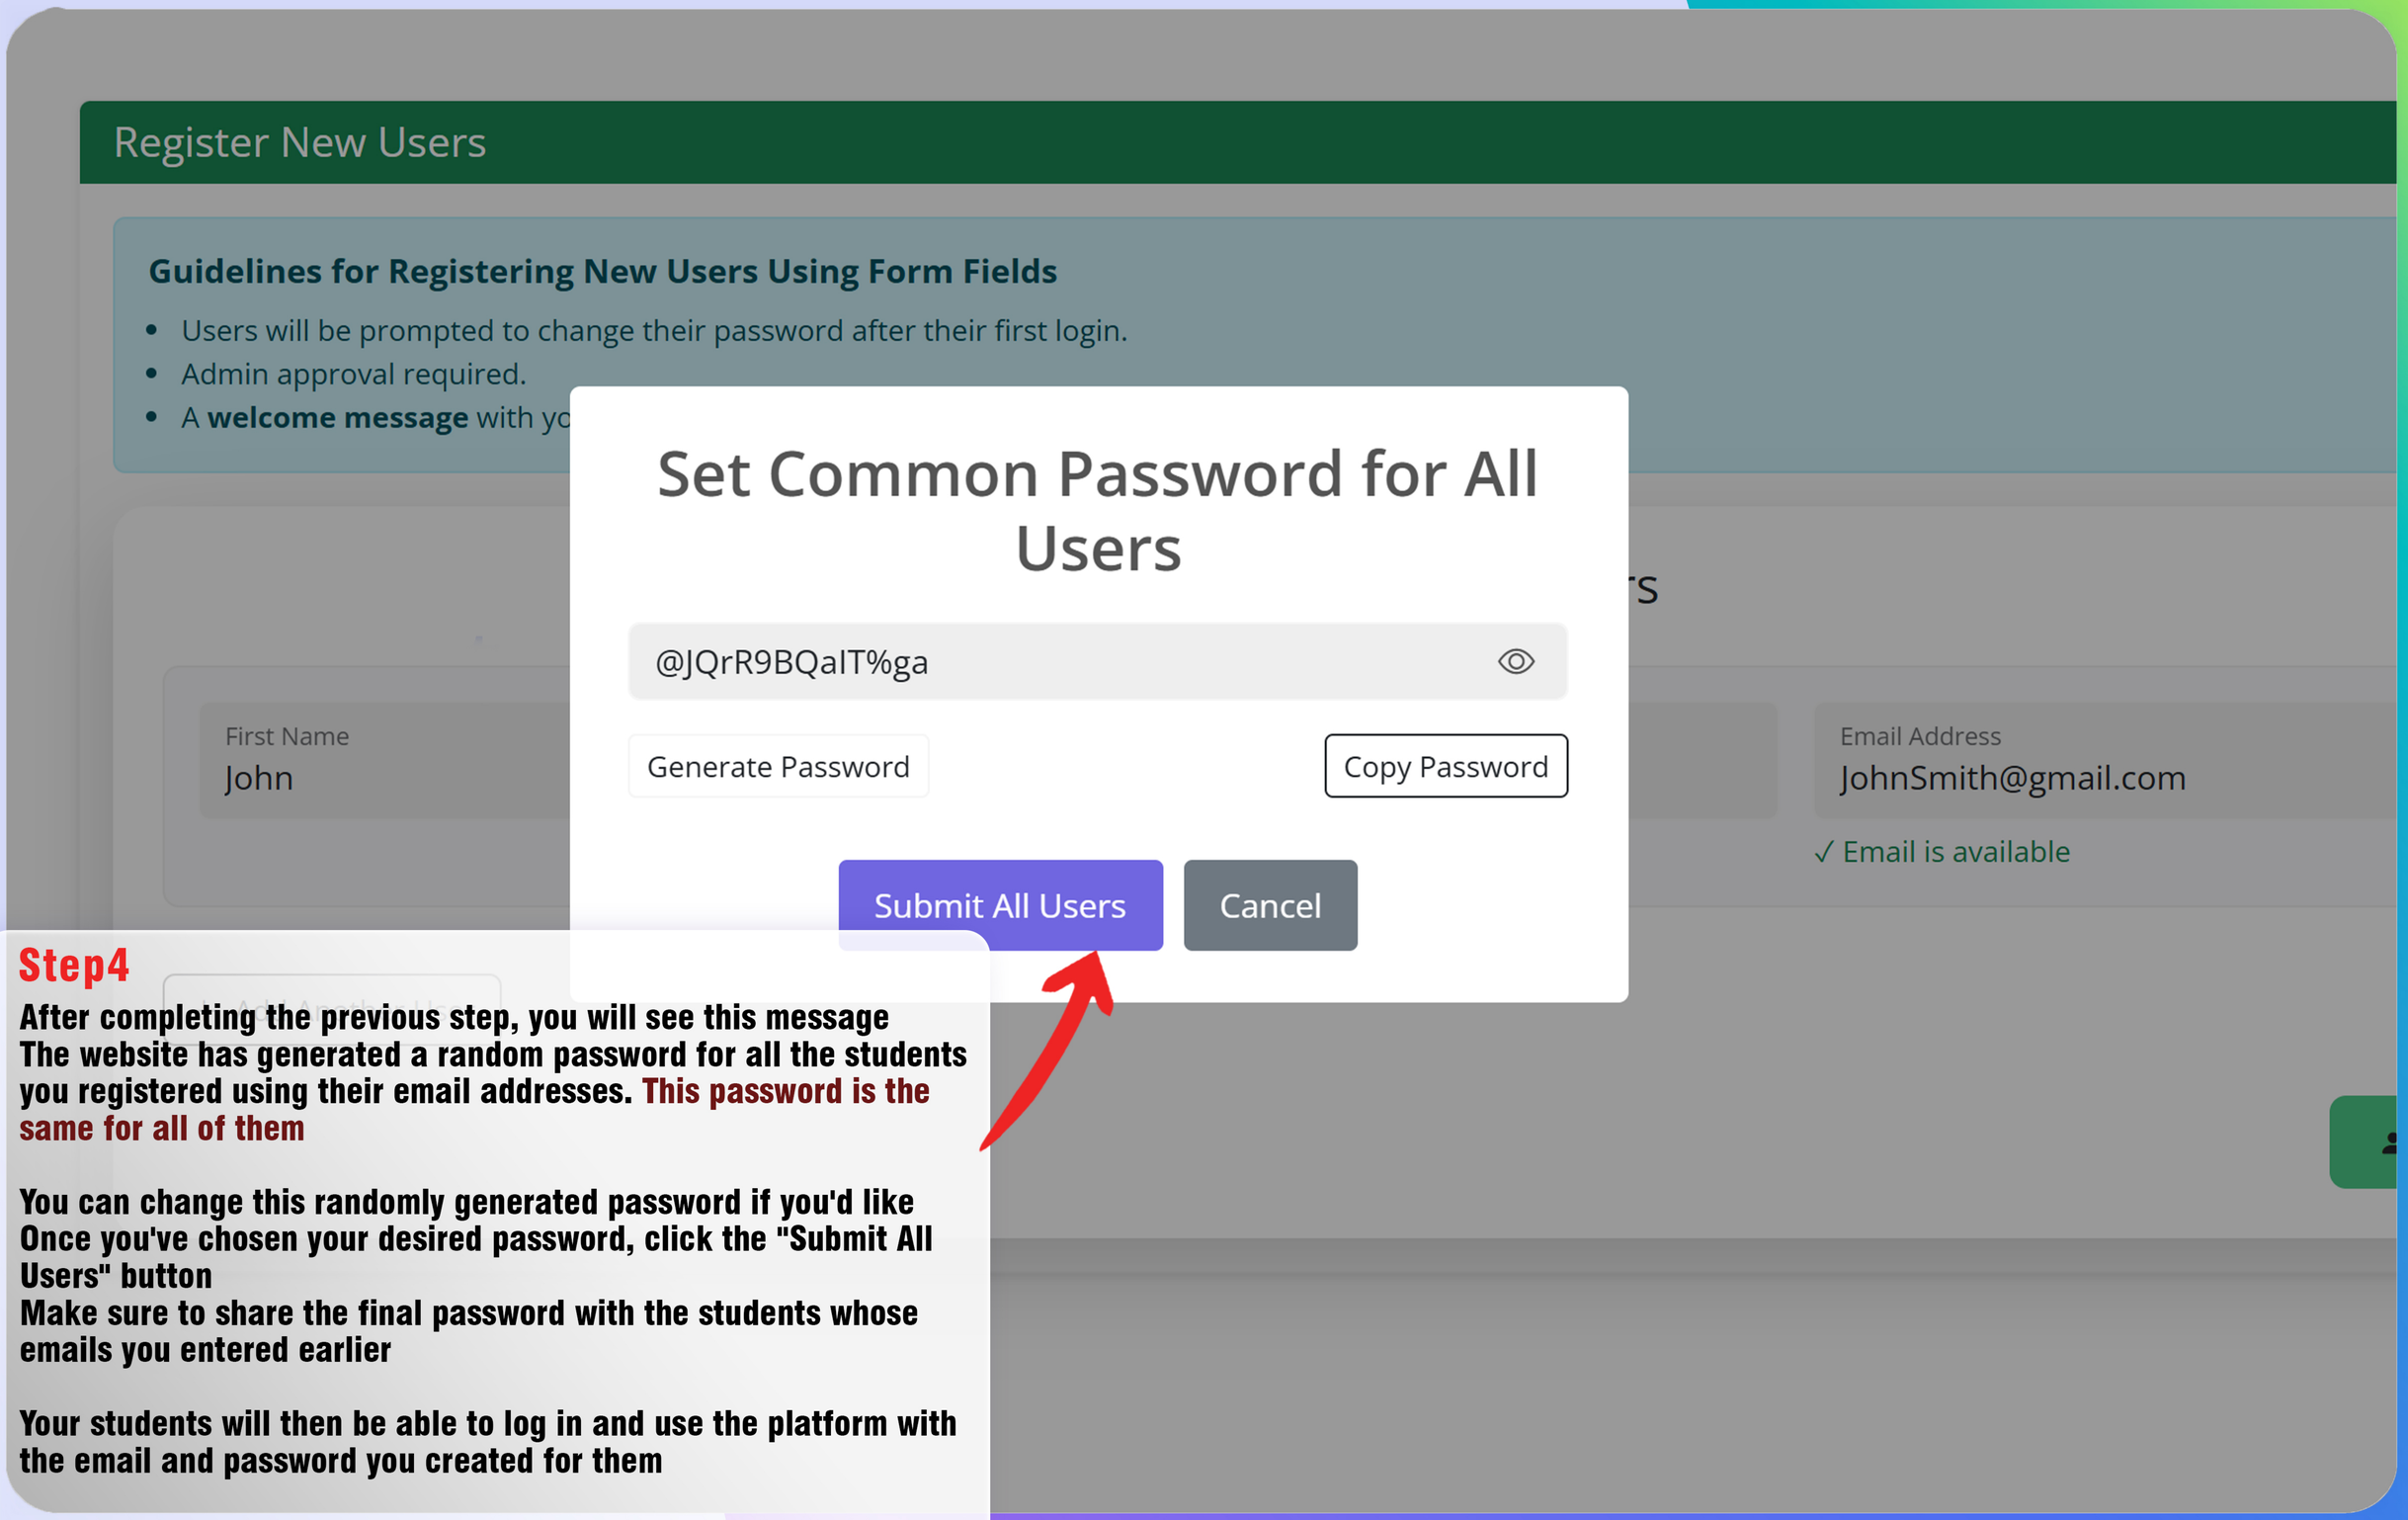
+ Add Another User

You can use this button to add more students for registration

Step3

Once you have confirmed that all student details have been correctly filled in, click this button to complete the registration

Submit All



Step4

After completing the previous step, you will see this message
The website has generated a random password for all the students you registered using their email addresses. This password is the same for all of them

You can change this randomly generated password if you'd like
Once you've chosen your desired password, click the "Submit All Users" button
Make sure to share the final password with the students whose emails you entered earlier

Your students will then be able to log in and use the platform with the email and password you created for them
